WHY AN OCEAN KAYAK?

In 1971 we originated sit-on-top kayaks as they're known today. A lot has changed since then, and Ocean Kayak has not only been around longer than others to see those changes, we spear-headed most of them. Be it stackable hulls to save storage space, large hatch openings to help you stow gear or patented overlapping foot wells for maximum versatility, we have been innovating and inventing ways to improve your experience on the water. Having fun and being comfortable - that's what it's all about!

Why A Sit-On-Top?

When you are in the market to purchase a kayak, the first question you may run into is "Do you want a traditional sea kayak or a sit-on-top kayak?" Both are wonderful crafts, but a sit-on-top offers many advantages over a traditional sit-inside kayak. When the first sit-on-tops were unveiled several decades ago, many paddlers took to them immediately, finding these boats less confining than traditional decked kayaks. In addition, many paddlers like the fact that in the unlikely event the boat tips over, they can easily climb back on top.

Today's sit-on-tops are not only great for most traditional paddling situations, many paddlers swear by their sit-on-tops for fishing, surfing, exercise, touring or just

having fun. And just because we're "Ocean Kayak" doesn't mean that you can only paddle in an ocean. Our kayaks are great for slow moving rivers (up to class II), ponds, lakes, bays and just about anywhere else you want to paddle.

Need more reasons why sit-on-tops are the kayak of choice? Safety, stability, convenience, ease of use, nothing hemming your knees in and self bailing scupper holes. See for yourself how much fun a sit-on-top can be.

Organizations We Support

BREAST CANCER FUND: Ocean Kayak is proud to promote women's healthy, active lifestyles. One percent of the Caper Lady Angler and Venus' gross sales is donated to the Breast Cancer Fund.

WATERKEEPER ALLIANCE: Ocean Kayak is proud to support the health of the environment and clean water. One percent of gross sales from recycled kayaks will be donated to Waterkeeper Alliance, dedicated to protecting water from polluters.

SOME OF WHAT MAKES US UNIQUE

Ocean Kayak Performance Hulls

Most of our sit-on-tops have a tri-form hull design with a built-in keel for easy tracking (traveling in a straight line) and two "shoulders" on either side for great initial and secondary stability. And Ocean Kayak hulls are designed to be extra strong through compound curves rather than sharp lines or heavy stiffeners, so they're less prone to breakage.

Comfort Plus™ Seat Back

All of our kayaks in the Sport Line and Sport Angler Line feature the Comfort Plus seat back. This upgraded seat back provides amazing support to your lower and mid-back. An uncomfortable hard plastic seat back, or no seat back at all, will be the difference between being on the water for 30 minutes versus being on the water for half the day or longer! The Comfort Plus is also completely adjustable to achieve maximum support for almost any body type.

Tons Of Storage

Our tank wells and large hatches offer storage for almost any kayak situation. If you need to pack a lunch, or pack a week's worth of gear, we have a storage option for you.

Scupper Holes

Scupper holes may be found in the cockpit, foot wells and tank well of the kayak. These holes are self-bailing which means any water coming over the deck of the kayak will automatically drain out.

Scupper plugs are available as an accessory to plug up the holes, giving you a drier ride.

And More!

Our materials are low maintenance, repairable, recyclable and will last for many, many years if properly maintained. Ocean Kayak also water tests every kayak we make. This additional quality step helps to identify and prevent potential leak areas in your kayak. And if all that is not enough, we offer a three-year limited warranty on any manufacturing defects on all of our hulls.

WEIGHT 45 lbs | 20.4 kg
MAX CAP. 275-325 lbs | 124.7-147.7 kg

ABOUT: Tried and true, this kayak is great on flat water because of its molded-in keel, and it rides waves nicely due to its short length. Easy on your pocketbook too. Stable, maneuverable and versatile. A great choice for smaller to medium-build paddlers.
OPTIONS: Up to two round Gaspachi hatches (bow, center)

FEATURES Molded-in seat well, tank well with bungee, molded-in foot wells.

SERIOUS FUN

At Ocean Kayak we take our fun boats seriously. We bravely step outside of our cubicles to conduct hours of "field research" in search of ways to make our kayaks even better. Whether it's by creating the ultimate comfort seating system, simplifying access to your gear or improving on design - our sit-on-tops are some of the best on the market. No wonder Ocean Kayak continues to be the World's #1 Sit-On-Top Kayak.

SELECTED OCEAN KAYAK FEATURES

6" Cam Lock Hatch System

The 6" Cam Lock hatch system is standard on some Ocean Kayaks, but can also be installed in the same area you would install an optional 6" hatch with cat bag. The easy to open toggle makes storage in the cavity of your boat easy.

Cross Lock™ Hatch

The Cross Lock hatch (10.5" x 17.25") is featured on the Prowler Trident 11, 13 and 15 models and Malibu Two XL Angler. It is optional on the Scrambler 11 (bow) and the Malibu Two XL (center). The easy to open Cross Lock buckle makes getting into the hatch a breeze.

Comfort Plus™ Seat Back

Included on every kayak in the Sport Line and Sport Angler Line, the Comfort Plus seat back offers couch-like comfort on the water. Extra foam padding provides the ultimate in comfort and support, while the 4-way adjustability provides a custom fit for almost any body type.

Comfort Plus™ Seat Back Features:

- Extra foam padding for ultimate comfort
- Durable, UV resistant nylon pack cloth
- Reinforced stays for durable seat construction
- 4-way adjustability for a custom fit for almost any body type
- Reflective logos that illuminate in the dark after exposure to sunlight

AND THEN THERE'S FISHING

More and more anglers are using sit-on-top kayaks to land the big one. Ocean Kayak has become one of the most popular fishing kayaks in the world. Why? We offer larger tank wells for storage, comfortable seating, large, roomy hatches and plenty of deck space to mount fish finders, rod holders and everything else you need for fishing fun.

If you're after some really big fish, don't let the Ocean Kayak Angler Editions get away. These kayaks are enhanced just for fishing with special features including angler graphics, flush mounted rod holders and more! Ocean Kayak's stable and efficient designs are perfect for landing the big one!

ANGLER FEATURES

TRANSDUCER COMPATIBLE SCUPPER TRANS-DUCER
A transducer compatible scupper is an enlarged scupper molded into our Prowler Trident line. This scupper has been specially modified to accommodate a transducer.

ROD POD™
This unique hatch is featured on the Prowler Trident Angler versions. The Rod Pod hatch system provides easy access to your fishing rods while you are seated in the boat. It also features a moveable storage tray that can slide fore and aft.

SONAR SHIELD™
This storage compartment is featured on the Prowler Tridents. Store your fish finder under the shield to protect it during transit or through the waves. Pop up the fish finder and use the shield to reduce the glare of sunlight for an easier screen reading.

BATTERY SHELF/BAG
Our Prowler Trident Angler line features a battery shelf/bag found just inside the bow hatch. This storage system is designed to conveniently house the battery of your fish finder.
